

Virtual Public Information Session Notice/Invitation

Name & Address of Project: Vaporizer 13/14 Project & Air State Facility Permit, National Grid Greenpoint Energy Center, 287 Maspeth Avenue, Brooklyn, New York

Project Sponsor: The Brooklyn Union Gas Company doing business as National Grid NY (National Grid)

Virtual Public Information Session: You are invited to a Virtual Public Information Session to be held via video/teleconference on: **October 21, 2021 from 6 to 9 PM.**

You can attend and participate in the Virtual Public Information Session online and/or by telephone.

- **To join online,** use this link:

<https://www.mymeetings.com/nc/join.php?i=PWXW2423046&p=3045974&t=c&sigKey=nationalgrid>

- **To join by telephone:** call: **877-655-4190** (toll free) and enter the **Participant Code: 3045974.**

At the meeting, National Grid will give a brief presentation about the proposed project and Greenpoint Energy Center's Air State Facility (ASF) permit application. There will be a question-and-answer session for the public to ask questions to the National Grid project team.

If you are unable attend the Virtual Public Information Session, or do not wish to ask questions during the video/teleconference, you may submit questions to National Grid via email, in writing, or telephone until **November 5, 2021** using the following contact information:

National Grid
Greenpoint Energy Center Project
1 MetroTech Center
Brooklyn, NY 11201

Telephone: 718-749-9539
Email: airpermit@greenpointenergycenter.com

Why is this meeting being held?

National Grid submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for an Air State Facility (ASF) permit to replace Greenpoint Energy Center's existing Air Title V (ATV) permit and to authorize construction and operation of two (2) new 42.76 MMBtu/hr vaporizers (Vaporizers 13 and 14) to vaporize liquified natural gas (LNG) (the Proposed Action). NYSDEC is requiring the permit applicant (National Grid) to develop and execute a public participation plan (PPP) that targets the local community and provides additional outreach and public participation opportunities. This public information session is being held to keep the public informed about the proposed project and permit application review process.

How can I participate in the permit review process?

- Attend the upcoming Virtual Public Information Session scheduled for **October 21, 2021** at 6:00pm. Join online and/or by telephone to learn about the project, ask questions and/or express concerns about the project.
- Contact National Grid to submit questions via email, in writing, or telephone until **November 5, 2021** using the contact information identified above.

Where can I get more information?

- Visit the Project Website at: www.GreenpointEnergyCenter.com to access the online document repository (see Document Library section) and review application materials and relevant documents developed during the permitting process.
- Contact National Grid for additional information and to ask questions about the meeting and/or project
