Dear Ms. Waxman:

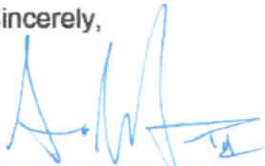

The Department appreciated the opportunity to speak with you, Linda Sullivan, and Christopher Connolly on Monday, June 7, 2021. As discussed, the Department is in the process of preparing a responsiveness summary in response to the comments received during the public comment period, including the oral comments received during the legislative public hearings on the permit application documents in accordance with the requirements in the Uniform Procedures Act regulations (6 NYCRR Part 621).

To enable the Department sufficient time to adequately evaluate and address the public comments, we respectfully request National Grid's mutual consent to extend the time frames in 6 NYCRR § 621.10 for the Department to make a final permit decision on this application to November 4, 2021.

While we understand and appreciate that you conveyed your agreement to the above extensions during our telephone conference on June 7, 2021, National Grid's consent as the applicant is requested by providing their countersignature on page 3 of this letter. Once countersigned, please have a copy with the original signature returned to me at the address above.

If you have any questions about this request, please call me at (718) 482-4077. We look forward to your response.

Sincerely,

Stephen A. Watts III
Regional Permit Administrator
